

# Thousands

kilo

$10^3$

Hundreds of Thousands	Tens of Thousands	Thousands

10 THOUSAND =  
100 HUNDREDS =  
1 000 TENS =  
10 000 ONES

SO HOW WOULD  
YOU EXPAND  
100 000?

\* Did you know that 100 x 100 is ten thousand?

\* It is c. 384 403 km to our moon. It would take c. 160 days to drive there at 100 km/h.

\* Light travels at 299 792.8 km/s. It only takes a second & a bit to travel from the Moon to your eye.
